

Nordic Water Network

An interdisciplinary network for water related studies and exchange in Northern Europe

What is the Nordic Water Network offering you as a student from one of our partner universities?

If you are looking for a suitable **SUPERVISOR** for your **THESIS** Nordic Water Network (NWN) offers joint supervision of Master's, Bachelor's and PhD theses.

We offer several interesting **WORKSHOPS** with **EXCURSIONS** at one of our partner universities (e.g. Summer Schools).

NWN organizes **Science CHALLENGES** for testing your knowledge in a **COMPETITION** with other students.

At our annual **STUDENT CONFERENCES** you can discuss water related questions with other students, build up a **PERSONAL NETWORK** or get information about working possibilities.

For more information, check out www.nordic-water-network.com or contact us directly via contact@nordic-water-network.com
